Planter Bags at Competitive Prices

EcoPlanta bags have been designed specifically for nurseries of all sizes to meet the great demand for immediately-available stock for large projects.

At Beck, we can provide large quantities of bags at any time to give you a great competitive advantage by providing a great choice of container-grown stock to your customers.

Produced from tough, woven UV-stabilized polypropylene, EcoPlanta bags are unlaminated allowing free flow drainage.

EcoPlanta bags have a number of advantages over plastic and other types of rigid containers:

- Choose from 6 popular sizes (28L, 33L, 45L, 50L, 63L, 78L)
- Competitive prices - Save with quantitative discounts
- Integrated handles for easy manual or fork-truck handling
- Low, squat design for stability
- Made from tough non-laminated UV treated 140gsm polypropylene material
- Supplied flat packed in bales – compact to store, lighter to handle and easier to dispose of
